Professional Summary

Java Full Stack Developer with hands-on experience in full-stack web application development and technical mentoring. Skilled in building scalable software solutions, writing clean and maintainable code, and collaborating throughout the Software Development Life Cycle (SDLC). Seeking a challenging Full Stack Developer role to contribute to innovative projects while continuously learning and growing.

Experience

Full Stack Development Mentor (Contract)

Dec 2025 – Present

V5 Global Services (Client Deployment: Accenture Solutions)

- Developed and delivered 5 comprehensive technical curriculums in **Java Full Stack**, training **65+** software engineers in **Core Java**, **Spring Boot**, **Microservices**, and **React.js**.
- Coordinated code-review pipelines for the **Google India Apprenticeship Program (GIAP)**, guiding 12 engineering cohorts to meet milestone delivery goals.
- Mentored and reviewed 18 end-to-end student web application projects, validating repository structures, modularity, and code quality.
- Conducted **40+** coding assessments and **Data Structures and Algorithms (DSA)** problem-solving sessions to evaluate engineering proficiency.

Assistant Trainer – Java Full Stack Professional

Sep 2025 – Nov 2025

TalentSprint / Engagement managed via V5 Global Services

- Conducted 120+ hours of technical sessions covering **Spring Boot**, **Microservices**, **REST APIs**, and client-side application development.
- Streamlined development workspace configurations, reducing environment setup and deployment issues.
- Formulated **50+** coding assessments on **Java**, **DSA**, **Spring Boot**, and full-stack application development.

Technical Skills

Programming Languages: Java (Core/Advanced), Python, C, C++, SQL, PL/SQL

Frameworks & Libraries: Spring Boot, Spring MVC, React.js, Angular, Node.js, Express.js

Web Technologies & APIs: HTML5, CSS3, JavaScript (ES6+), RESTful APIs, Microservices, JSON

Databases & Storage: MongoDB, MySQL, Oracle SQL

Testing & DevOps Tools: Postman, Git, GitHub, GitLab, VS Code

Core Competencies: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Full Stack Development, Agile/Scrum, Software Development Lifecycle (SDLC)

Projects

SportsConnect – Online Sports Tournament Platform | [Project Link](#)

MERN Stack

- Developed a sports tournament platform using the **MERN Stack** with location-based search, tournament management, and real-time scheduling.
- Implemented **JWT Authentication**, **Role-Based Access Control (RBAC)**, and secure **REST APIs** for user authorization.
- Integrated **Express.js**, **MongoDB**, and backend middleware for efficient data management.
- Utilized **Git** and **GitHub** for version control and collaborative development.

Secure IoT Data Sharing with Blockchain and Proxy Re-Encryption

Java, JSP, MySQL

- Developed a secure data-sharing system using **Enterprise Java**, **JSP**, and **MySQL**.
- Applied **Blockchain** and **Proxy Re-Encryption** to secure encrypted IoT data exchange.
- Implemented secure data access mechanisms and validated application functionality using **JUnit**.

Education

Master of Computer Applications (MCA)

T.J.P.S College, Guntur

2022 – 2024

CGPA: 8.53/10

B.Sc. in Mathematics, Statistics, and Computer Science

T.J.P.S College, Guntur

2019 – 2022

CGPA: 9.6/10

Achievements

- Gold Medalist in MCA:** Achieved top academic standing out of the entire graduating post-graduate computer science division.
- Merit Certificates:** Honored with multiple institutional excellence awards for sustaining premium academic metrics across academic and postgraduate programs.
